

## ELENE L. JOHAS TEENER, LCSW

Certified EFT Therapist  
Individual, Family, Group Psychotherapy  
California Lic. No. LW 9082

I was in the Spring, 2025 Cohort of the Alfred M. Hubbard Institute, AMHI, psilocybin facilitators training program. This course prepared me to take the examination to become a licensed psilocybin facilitator in the state of Oregon. I took the examination and passed in September 2025.

The course was a comprehensive program covering all of the areas both to facilitate, and pass the examine. As these types of State examines tend to be, there were trick and sometimes vague questions. I think these are designed to test your comprehension and skills at combing through pages of legal documents for answers. The program, and teacher did a good job of questioning my logic and suggesting further research. I think my favorite part of the program, however, was learning about the significant history around plant and psychedelic medicines. The contributors and what their experiences were and are.

My own expertise is utilizing psilocybin for mental health healing. I feel much better able to create a safe environment and using my knowledge and skill working with this substance.

Warmly,

~Elene Johas Teener
